Those who had been identified as close contacts of confirmed cases would already have been notified by MOH.

As a precautionary measure, persons who had been at these locations during the specified timings should monitor their health closely for 14 days from their date of visit. They should see a doctor promptly if they develop symptoms of acute respiratory infection (such as cough, sore throat and runny nose), as well as fever and loss of taste or smell, and inform the doctor of their exposure history.

Individuals may access the SafeEntry Location Matching Self-Check service via the TraceTogether App, SingPass Mobile, or at <https://wereyouthere.safeentry.gov.sg> to check whether they were at these locations during the specified timings, based on their own SafeEntry records.

There is no need to avoid places where confirmed cases of COVID-19 have been. The National Environment Agency will engage the management of affected premises to provide guidance on cleaning and disinfection.

¹ Excludes residence, workplaces, healthcare facilities and public transport. This list will be updated on a rolling 14-days basis, i.e. one incubation period, and as epidemiological investigations progress.
